#282 NARAYANA, 2nd main Talacauvery layout , Amruthahalli Bangalore - 560092

3rd year B.E Electronics and Communication Engineering student with a strong foundation in embedded systems, IoT, and core electronics. Passionate about building real-world solutions by integrating hardware and intelligent systems. Experienced in project development, hackathons, and technical workshops with a focus on innovation and system-level thinking.

Education

B.E, Electronics & Communication Engineering Sai Vidya Institute of Technology, CGPA – 7.45/10	2023-27
II PUC – MES Kishora Kendra PU college State Board, 72%	2023
10th (Secondary Examination) – MEC Public School CBSE Board, 75.4%	2021

Technical Skills

- **Programming:** Embedded C, Basic Python
- **Core ECE:** VLSI Basics, Digital Electronics, Analog Circuits
- **Embedded & IoT:** Arduino, Sensors, Microcontrollers
- Problem Solving, Circuit Design, Debugging

Academic Projects

1. Breathe Safe – Smart Mask for Toxic Gas Detection

- Designed a smart wearable mask to detect harmful gases in real-time.
- Used gas sensors with embedded systems for safety alerts.
- Implemented alert mechanisms for hazardous environments.
- Focused on practical applications in industrial and public safety.

2. AI-Powered Embedded Code Generator

- Developed a system to convert natural language instructions into optimized embedded firmware.
- Generated efficient **C/C++ code** for microcontroller-based systems.
- Integrated communication protocols like **I2C, SPI, UART**.
- Focused on real-time code generation, validation, and documentation.
- Demonstrated strong integration of **AI + Embedded Systems**.

3. Disaster Sense AI – Environmental Data Fusion for Disaster Prediction

- Engineered a multi-hazard prediction system integrating ML, computer vision, and real-time API data.
- Leveraged data fusion techniques to combine flood modelling, fire detection, and seismic risk analysis.
- Designed a scalable alert framework for real-time disaster monitoring and response prioritization.
- Delivered an end-to-end intelligent dashboard enabling actionable insights for disaster preparedness.

Trainings & Workshops

- Participated in **MindSpark Mini Project Expo 2025**
- Attended **3-Day Workshop on Tech & Research (Brain to Bots)**
- Completed workshop on **Entrepreneurship & Innovation**
- Participated in **Research Paper Writing & Journal Publication Workshop**
- Participated in **Inventronics Hackathon (ECE Department)**
- Attended workshop on **Grant Proposal & Technical Paper Writing**

Achievements

- Secured **1st Prize** in MindSpark Mini Project Expo 2025 conducted by SVIT
- Actively participated in **national-level hackathons and technical events**
- Recognized for strong project implementation and innovation in embedded systems

Extra-curricular Activities

- Participated in NSS activities like Cancer awareness and Tobacco free campaign
- Participated in 7500 sapling plantation at ASC conducted by Bosch
- Hobbies include listening to music and playing Badminton.
